PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Engineering fresher with a strong foundation in Java, Python, SQL, Object-Oriented Programming, and software development fundamentals. Familiar with Spring Boot, REST APIs, MySQL, Selenium WebDriver, TestNG, and API testing. Good understanding of SDLC, STLC, Agile methodologies, database concepts, and software testing practices. Strong problem-solving and analytical skills with a keen interest in software development, application quality, and continuous learning.

TECHNICAL SKILLS

Programming: Java, Python , SQL, PySpark , ApacheSpark , HTML, CSS, Javascript

Cloud and DevOps: AWS , Docker , GitHub Actions

Generative AI and RAG: Rag , OpenAI

ML and Backend: MLflow , FastAPI **Testing:** Manual testing and Automation testing using Selenium Webdriver

Networking: TCP/IP, DNS, HTTP/HTTP

Database: MySQL, SQL Queries

INTERNSHIP

StarAgile

Nov 2024 – Apr 2025

Automation Test Intern

- Developed automation scripts using Java and Selenium to validate enterprise application workflows.
- Analyzed application issues, performed debugging, and collaborated on improving system reliability.
- Documented test scenarios, defects, and technical observations to support application maintenance.

PROJECTS

Biometric Based Payment System

- Developed a secure biometric payment system using fingerprint authentication integrated with a web application.
- Used Embedded C, HTML, CSS, JavaScript, PHP, MySQL technologies.
- Implemented fingerprint recognition algorithm and encryption algorithm for security features.

AI-Powered Document QandA System

- Developed a RAG-based document question-answering system using Python and LangChain.
- Implemented document processing, text chunking and embedding generation for semantic retrieval.
- Used FAISS for vector storage and similarity-based document retrieval.
- Integrated OpenAI API to generate context-aware responses from retrieved document content.
- Built FastAPI endpoints for document upload and question-answering functionality.

API Testing for Contact List Application

- Performed API testing for authentication and CRUD operations using Postman, RestAssured, Java, and JSON.
- Created API test scenarios and validated response data, status codes, and backend communication.
- Performed debugging and verification of API functionality for reliable application performance.

CERTIFICATIONS

- **Java Fundamentals - IBM** - Fundamentals of Java programming, OOP concepts, and programming practices.
- **SQL and Relational Databases - IBM** - Database design, SQL queries, and relational database concepts.
- **Automation Testing - StarAgile** - Selenium WebDriver with TestNG framework and basic knowledge of Cypress and Playwright.

EDUCATION

Bapuji Institute of Engineering and Technology

Bachelor of Engineering in Electronics and Communication Engineering

Sri Vyshnavi Chetana PU Science College

12th Standard

Jain Vidyalaya

10th Standard

Dec 2020 – May 2024

CGPA: 8.56

May 2018 – Mar 2020

Percentage: 88%

Mar 2018

Percentage: 89.7%
